ABOUT - SRI ASWIN INTERNATIONAL

Sri Aswin International is a leading garments manufacturer and exporter based in the knitwear capital of India—Tirupur. With a strong commitment to excellence, we specialize in producing premium-quality apparel that meets global standards. Our company has built a trusted reputation by consistently delivering innovative designs, superior craftsmanship, and customer-focused service.

At Sri Aswin International, quality is our foundation. We source the finest fabrics and utilize advanced production technologies to ensure durability, comfort, and style in every product we manufacture. Our highly skilled team follows strict quality control measures at every stage—right from yarn selection to final packaging—ensuring that our clients receive nothing but the best.

With years of experience in the apparel industry, we proudly serve a wide range of international markets. Our flexible production capacity, ethical manufacturing practices, and timely delivery make us a preferred sourcing partner for global brands. At Sri Aswin International, we believe in building long-term partnerships by exceeding expectations and continuously striving for sustainable growth and innovation.

Our Vision

To be a globally recognized apparel manufacturer and exporter by consistently delivering world-class quality, innovative designs, and sustainable solutions — becoming the most trusted and preferred partner for leading fashion brands worldwide.

Our Mission

- ✓ *To manufacture premium garments that meet international quality standards with precision, comfort, and style.*
- ✓ *To embrace advanced technology, skilled craftsmanship, and continuous improvement in every process.*
- ✓ *To ensure ethical production practices that support environmental responsibility and social well-being.*
- ✓ *To build long-lasting partnerships through transparency, timely delivery, and customer satisfaction.*
- ✓ *To empower our workforce with skill development and a safe, positive working environment.*

GARMENTS MANUFACTURING PROCESS & METHODS

At Sri Aswin International, we follow a streamlined and well-organized production process that ensures premium quality, operational excellence, and customer satisfaction. Our integrated facilities allow smooth coordination from product development to final dispatch, enabling us to meet international standards and timely delivery commitments.

Product Development & Sampling

Our process begins with creative design and technical precision.

- ✓ Understanding buyer requirements
- ✓ Developing patterns and size specifications
- ✓ Fabric selection and lab testing
- ✓ Creating fit samples, proto samples & approval samples

We collaborate closely with customers to ensure their vision is perfectly translated into the final product.

Fabric Sourcing & Inspection

We source high-quality fabrics from certified mills. Every fabric undergoes:

- ✓ Shrinkage testing
- ✓ Color fastness testing
- ✓ GSM & dimensional stability checks
- ✓ Visual inspection for defects

Only approved fabrics proceed to production.

Cutting & Bundling

Using advanced spreading and cutting equipment for accuracy:

- ✓ Automated cutting machines for precision
- ✓ Marker planning to reduce wastage
- ✓ Bundling by size and style to ensure correct workflow

Our skilled team ensures precise fabric cutting with advanced machinery, maintaining perfect measurements for every piece.

Stitching & Assembly

Our skilled workforce uses modern sewing technologies:

- ✔ Specialized machines for different stitch types
- ✔ Standardized operations for each garment part
- ✔ In-line quality checks to avoid defects

We follow standardized sewing methods that enhance comfort, strength, and finish. From panel joining to final assembly, every step is monitored to maintain consistent quality.

Printing & Embroidery

We provide value-added solutions to enhance product appeal:

- ✔ Screen printing, digital printing, heat transfer printing
- ✔ Computerized embroidery for premium finishing
- ✔ Eco-friendly inks and materials used upon request

Our printing and embroidery units deliver sharp detailing and smooth finishes. From simple logos to complex artwork, every design is crafted to stand out.

Trimming & Finishing

Once stitched, garments undergo final enhancements

- ✔ Thread trimming & loose end removal
- ✔ Steam ironing and shape setting
- ✔ Labeling, tagging & garment finishing

Each piece undergoes careful trimming, ironing, and shape setting for a refined final appearance. We maintain strict finishing standards for export-quality results.

Final Quality Inspection

Our QA team executes AQL-based (Acceptable Quality Level) inspections:

- ✔ Visual and measurement checks
- ✔ Strength, appearance & functional testing
- ✔ Packaging quality verification

Packaging & Dispatch

Dispatch is handled efficiently with proper tracking and coordination.

- ✔ Customized packing as per buyer guidelines
- ✔ Carton barcoding and shipment planning
- ✔ Secure logistics for global delivery

OUR INFRASTRUCTURE

Sri Aswin International operates with a robust and modern production setup designed to ensure precision, speed, and consistency in every garment we manufacture. Our infrastructure is equipped with advanced machinery and skilled manpower, enabling us to handle diverse product requirements and maintain high productivity without compromising quality.

Production Machinery :

Cutting Machines – 2 Lay Cutting / 1 Band Knife

High-accuracy cutting systems for efficient fabric utilization and flawless garment shapes.

Singer Sewing Machines – 25 Nos

Standard machines for smooth stitching, durability, and consistent finishing quality.

Powerable Machines – 60 Nos

Used for edge finishing to prevent fraying and enhance garment strength.

Drimmer Machine – 1 No

For precision trimming and clean finishing of garment components.

Net Folding Machine – 1 No

Ensures neat and uniform folding for specialized garment elements.

Kaja Button Machine – 1 No

Automated button fixing for secure attachment and enhanced product durability.

Checking Workstations – 9 Nos

Dedicated quality checkpoints to ensure defect-free production.

Ironing Stations – 8 Nos

Industrial steam ironing for professional shaping and flawless garment appearance.

Packing Stations – 5 Nos

Systematic packaging line to ensure organized, brand-specific, and export-standard packing.

Fusing Machine – 1 No

Strengthens fabric and reinforces garment components for a premium finish.

Our Quality Standards :

At Sri Aswin International, quality is more than a requirement—it's a promise. We maintain strict quality control processes at every step of production, from fabric inspection and pattern accuracy to stitching precision and finishing excellence. Our dedicated quality assurance team ensures that every garment meets international standards for durability, comfort, fit, and appearance. By using high-grade raw materials and advanced machinery, we consistently deliver superior apparel that reflects our commitment to excellence.

OUR CLIENTS

Sri Aswin International proudly serves a growing network of leading fashion brands, retailers, and wholesalers across the globe. Our clients trust us for our commitment to quality, reliability, and value-driven apparel solutions. By understanding diverse market needs and seasonal trends, we deliver customized products that perfectly align with brand identity and customer expectations.
